

TO WHOM IT NEED TO KNOW

Dear Distribution partner,

As you are aware there have been many questions raised regarding disruptions to manufacturing and logistics related to the Olympic Games in Beijing in particular the shutting down of any polluting manufacturing plants within a certain radius of Beijing as well as the increased burden on the ports and airports before and during the games.

Whilst FCI do not envisage any disruption we are not able to fully guarantee that there will not be any shipment delays caused.

We would recommend that where you deliver some critical parts to your customers that this is a consideration to possibly having parts shipped in sooner than you would normally have requested.

If you need any additional support in the identification of where any of your ordered parts are manufactured and shipped from China please do not hesitate to contact your local Customer service department.

Kind regards

Ronald Velda

FCI European Distribution Account Manager – Director  
ELX Division
